

ENVIRONMENTAL AND MINING

Geosynthetic Lining Solutions

Mustang Containment Solutions is staffed with a team of seasoned environmental lining professionals. Our team's project history encompasses all facets of environmental lining projects including the coal ash, mining, solid waste, petrochemical, energy, and waste water industries.

Our engineering and estimating teams evaluate each job independently, working directly with clients to provide accurate quotes and unmatched technical support. Our operational teams ensure the highest environmental and safety standards, as well as industry-leading expertise, and our quality control teams utilize proprietary testing technology to verify the integrity of each installation. Mustang Extreme's innovative processes and exceptional service result in a job that is done on time, within scope, and on budget.

ENVIRONMENTAL AND MINING

Geosynthetic Lining Solutions

Mustang Containment Solutions is one of America's largest and most forward-looking environmental containment services companies.
